MEMORANDUM FOR THE RECORD

SUBJECT: Biographic Intelligence

1. Contributions to the new BR biographic intelligence publications would be similar to those for the KP's. DIA contributions would be expected on large and populous countries, and, for others a list of names will be circulated to DIA for evaluation, as was done for the KP's.
2. The format and method of reproducing the new publication are under consideration in BR. After these matters have been decided, some of the remaining items on the FY 63 schedule are expected to appear in the new series.
